# Key messages

---

# FCRIP Key messages

- ❖ Providing local solutions to the impacts of climate change.
- ❖ Working to reduce the effects of flooding in our communities, while helping nature and bringing back natural processes.
- ❖ Finding ways to reduce the impact and effects of flash flooding in our communities.
- ❖ Helping communities to reduce the impact and effects of flash flooding.
- ❖ A unique project to help communities be better prepared for and able to recover more quickly from flooding.

# FCRIP Key messages

- ❖ Improving your community's chances of being able to respond to climate change and the increased risk of flooding.
- ❖ To help your community bounce back quicker when affected by flood.
- ❖ Over the next few years we have a unique opportunity to bring positive benefits to communities across the area, reducing the effects that flooding can have and helping communities to respond when flooding does happen.
