

Information Sheet

Re-opening Village and Community Halls post COVID-19 closure Issue 4 – Current on 20th July 2020

Those responsible for managing halls are advised to make sure they are on their local [ACRE Network](#) member's mailing list. Also, to keep monitoring their ACRE Network member website and social media channels for any updates or check the gov.uk coronavirus website. This will ensure they are alerted to changes in Government guidance.

This information Sheet has been issued in anticipation that Village and Community Halls will be able to accommodate indoor sport and exercise, dancing classes and certain other performance-related activity from 25th July 2020. ACRE has been working as far as possible with relevant Government departments so that hall managers have confidence they are working to "joined up" guidance and this fourth Issue includes points clarified by Government through changes to the Government Guidance for the safe use of multi-purpose community facilities, which was re-issued on 15th July (covered in Appendix D in this version) It aims to provide practical information to assist hall managers to comply with Government guidance and the Health Protection Regulations.

Village and Community Halls are multi-purpose premises so it is based on interpretation, as far as possible, of Government guidance published for Community Facilities and - where relevant - that for re-opening of Playgrounds, Outdoor recreation areas, bars and cafes, indoor markets, places of worship, gym/leisure facilities and grassroots sport, performance. However, it is not possible to go into the detail of all the relevant Government guidance and links are given in Section 6. This Sheet may be updated in accordance with any subsequent government guidance.

The term "managers" is used here to describe those responsible for managing a village hall, community centre, church hall, parish hall or similar multi-purpose community facility, whether volunteer trustees, committee members or paid staff. Please note that any advice or information provided here should not be taken as a substitute for professional legal or other advice.

1. The Step by Step approach

The Government has laid out its recovery plans in 'Our Plans to Rebuild' (see link at end). These plans are contingent on the "R" rate of COVID-19 infection not increasing. They may be adjusted or rescinded either nationally or, possibly, in certain parts of the country in the light of the situation.

In order for each Step to be implemented the Public Health Regulations need to be amended. When specialist venues (e.g. shops, gyms, theatres etc) are permitted to re-open, the activities they usually hold are permitted in multi-purpose community halls, so these are gradually extending.

Step 1: From 13th May certain outdoor facilities were able to be used by members of the same household and one other person, e.g. tennis courts and bowling greens.

Step 2. The Government allowed nurseries and Pre-schools to open to a wider group of children from 1st June 2020 and indoor markets from 15th June.

Step 3: Public buildings have been allowed to open from 4th July. Ministry for Housing, Communities, and Local Government (MHCLG) Guidance for the safe use of multi-purpose community facilities (see link in Section 6) has been published which makes clear that "each community facility should apply relevant guidance listed here, locally, depending on circumstances including size, type of activities, users and how it is organised, operated, managed and regulated". **Step 3 is the subject of this Information Sheet.**

2. Planning for re-opening

2.1 The COVID-19 Secure Guidelines: Trustees, managers and any staff need to be aware that the following 5 key points apply. These underpin COVID Secure status and this Information Sheet and arrangements should reflect them:

- **Minimise contact with individuals who are unwell: Nobody** should attend the premises if they have symptoms or are self-isolating due to symptoms in their household.
- **Clean your hands often:** Sanitiser or soap and water should be provided at entry and exit points, sanitiser and/or running water, soap and paper towels or hot air driers in toilets and kitchens.
- **Respiratory hygiene:** Everyone needs to be encouraged to avoid touching their mouth, eyes, and nose. Tissues need to be disposed of into a bin, then hands cleaned. A "**Catch it, Bin it, Kill it**" poster is available (see end for link).
- **Regular cleaning of surfaces that are touched frequently:** including door handles, handrails, tabletops, sinks, toilet areas, kitchen surfaces. Ordinary domestic products can be used.
- **Maintain social distancing where possible:** Social distancing guidelines currently require at least 2 metres (3 steps) to be maintained between individuals and groups of up to 2 households where possible and, where not possible, 1metre plus other mitigation measures. Bookings can be accepted for events where social distancing can be maintained and contacts below 2m are minimised and transitory, but certain types of events cannot yet be held. See 2.2 below.

Do not re-open until you have identified the necessary safety, compliance, management, and operational issues through a COVID-19 risk assessment and established a plan to address and mitigate them. You are not obliged to re-open immediately and it would be unwise to do so if you have not been through that process.

Appendix A provides a checklist of tasks likely to be needed prior to re-opening, of which compliance with COVID-19 secure guidelines is just part.

Hall managers will need to engage with their regular hirers to ensure that the 5 COVID-19 Secure Guidelines requirements above are clearly understood. Trustees appointed by organisations which use the premises have an important role to play in communicating these requirements to their members and in ensuring the special hire conditions which will need to be introduced are followed. See 2.5 below and **Appendix E**.

As part of opening after lockdown, self-certification should be displayed that halls are complying with COVID-19 Secure Guidelines. This will also help users feel confident about using the premises. See **Appendix C** for a sample certificate/poster.

2.2. Social Distancing, capacity and test and trace at Village and Community Halls

a) The Government Guidance on safe opening of community facilities emphasises the importance of ensuring adherence to social distancing of 2 metres or 1 metre with risk mitigation (where 2m is not viable). The size and layout of the premises will determine the maximum number of people that can be accommodated while also facilitating social distancing. In order to achieve social distancing requirements, as far as possible, managers will need to work out the capacity of rooms and set limits on the number of people permitted to use a particular hall or room at any one time. As a starting point, this might be around one quarter of the seating or (for non-seated activities, dancing) capacity set for fire safety purposes or the size of the room in square metres divided by 4 (the answer may not be the same, because the fire capacity is usually based on the number of fire exits). As this method will be based on individuals attending, rather than groups of people from the same or no more than 2 households, this offers a cautious approach. Different layouts and activities will allow different capacities. See also section 2.5.

b) Larger events: Community facilities which are COVID-19 Secure will be able to hold more than 30 people, subject to their own capacity limits. However, where gatherings have more than 30 people, the Government guidance says “those operating venues should take additional steps to ensure the safety of the public and prevent large gatherings or mass events from taking place.” Weddings, wedding receptions and other life-event religious ceremonies (funerals, baptisms etc.) are limited at present to no more than 30 people. Outdoor events are limited to 30 people unless organized by a charity, business, public body or political organisation. The need to prevent large gatherings (where social distancing and track and trace would be difficult) is clear from the Government Guidance: “Local authorities should avoid issuing licenses for events that could lead to larger gatherings forming and provide advice to businesses on how to manage events of this type”, with a reminder that venues can be closed. For events with more than 30 people more attention therefore needs to be paid to e.g. stewarding, and this is reflected in **Appendix E**.

c) ACRE has checked the social distancing requirements at community facilities with Government and it has been clarified in section 3c of the updated Guidance for Safe Opening of Community Facilities: In general people are being advised to only meet indoors in groups of up to 2 households or, outdoors, meet in a group of up to 6 people from different households, following social distancing guidelines as far as possible. Those in single adult households can form a “support bubble” with another household. At an event, household groups are advised to limit social interactions with anyone outside the group they attend with as far as possible. The aim is to limit risk of transmission to small groups. Organisers of activities should lay rooms out so as to enable household groups to observe social distancing as far as possible. See also **Appendix D**.

d) User groups may not know at the outset how many people are likely to attend activities. A booking system is not required but for larger events it may be a useful means of keeping within capacity and recording contact details for NHS Test and Trace. A booking system would be inappropriate for community

activities which are important for mental and physical health, as attendance is often dependent on last minute factors. It would be preferable to ask groups to think about how they will deal with any excess, which may depend on the nature of their activity and the facilities at the hall e.g. "first come, first served", using other space to increase capacity e.g. garden, kitchen, entrance hall, committee room, re-running an activity later or on another day, some people joining in online either at home or via laptop in another room.

e) NHS Test and Trace: All groups are asked to assist NHS Test and Trace by keeping a temporary record of who attends for 21 days and to provide that data to NHS Test and Trace if needed. (It is not compulsory for people to provide information but could help contain outbreaks.)

f) Lapses in social distancing: Some lapses may be difficult to avoid, e.g. where people pass in internal corridors. Government guidance indicates that such transitory contacts are lower risk and it will be for hirers to try and arrange their activities to avoid these risks if possible, particularly for older or medically vulnerable people.

g) Pinch points: Arrangements will need to be made to manage people at "pinch points" e.g. arriving for an activity and exiting afterwards, in toilets, kitchens and corridors. There is a risk entrances could become congested owing to multiple user groups, or people lingering to read notices or chat; so a socially distanced queueing system is required, e.g. tape on the ground outside and inside the entrance hall, with signage. Staggered arrival and departure times may help.

h) Implementing a one-way flow in and out of the premises should help avoid congestion, particularly where multiple activities are held at the same time. Usually entry would be via the main entrance, with people leaving via fire exits. For security, fire exits would need to be closed by the last person to leave the building, who then leaves via the main entrance. Appropriate signposting will be needed. Any changes to entrances, exits and queues should, however, consider the needs of those with physical disabilities. It may not be possible to implement one-way flow internally, as people may have to cross an entrance hall to reach the toilets or kitchen, so it may be necessary to stagger access to such facilities e.g. a longer interval.

i) Face Coverings: From 24th July face coverings are required in shops, so this includes community shops, post offices and indoor markets in village halls. The Government advice is that if you can, you should wear a face covering if in an enclosed space where social distancing isn't possible. Also where you will come into contact with people you do not normally meet, which may include activities in a community hall, such as preparing refreshments in a small kitchen or using toilets. However, face coverings should not be taken on and off frequently, so while this is most relevant for short periods indoors in crowded areas such as public transport for community halls the priority is that social distancing and good hygiene are maintained. Face coverings should not be used by children under the age of 3 or those who would find it difficult to manage them correctly.

Government guidance for community facilities states: "Face coverings do not replace social distancing. Even if a face covering is used, staff and users of the space should continue to wash hands regularly and maintain social distancing. If users of the space choose to wear one, it is important to use face coverings properly and thoroughly wash hands before putting them on and taking them off".

A face covering may provide some protection for others you come into close contact with if you have become infected but not yet developed symptoms. Consequently, where people will be working in proximity, and with older and/or clinically vulnerable people, a face covering is advisable to protect those people. Examples include preparing food or drink in a small kitchen and serving older or clinically vulnerable people, e.g. at a coffee morning or lunch club, or cafe.

j) Consultation with regular user groups will be important as some reorganisation may be inevitable. Some groups may not return for some time but want to retain their usual "slots" while it may be necessary to hire the premises in different ways. For example, groups may need to use the main hall rather than a committee room to achieve social distancing, which may mean substantially re-arranging timings for main hall use. A committee room may need to become a "kettle point" for any offices so that staff do not need to use the kitchen when a hire is in progress. Some groups may be able to continue running activities online to make way for others. **Appendix B** is a sample questionnaire for users, kindly shared by Witcham Village Hall, Cambridgeshire.

k) In case of emergency it is important to prioritise safety: In the event of fire or accident people do not have to stay 1 or 2m apart if it would be unsafe to do so.

2.3 Risk Assessment for COVID-19

Village hall trustees must consider the COVID-19 Secure guidelines (see above) and should undertake their own COVID-19 Risk Assessment to ensure that their staff (cleaner, caretaker) and trustees are safe. See **Appendix F** for an example.

If this cannot be done i.e. because hall officers or staff are shielding or otherwise not available, the responsibility for risk assessment and implementation of actions can be delegated to a competent individual or company engaged to carry this out. Bear in mind that the Government guidance on performance says: "Risk assessment is not about creating huge amounts of paperwork, but rather about identifying sensible measures to control the risks in your workplace." Going through a Risk Assessment process and working out the areas of greater and lower risk will hopefully enable a "common sense" approach to which hirers can adapt.

Employers and organisations have a duty to consult workers and volunteers on health and safety so listening and talking to them about how you will manage risks from COVID-19 will show that you take their health and safety seriously.

2.4 Cleaning and encouraging good hygiene

All surfaces which are frequently touched should be cleaned regularly using standard cleaning products. A decision will need to be made on how frequently cleaning should take place, based on an assessment of risk, and use of the building. Some halls have the resources (staff, finance) to clean regularly used surfaces and equipment before hirers arrive, which is ideal. If that is the case, the cleaner might post a sheet showing when the hall was last cleaned, as a comfort to users.

Many village and community halls, however, have part time or self-employed staff e.g. with other cleaning jobs, who work only a few hours per week, or no staff (users clean before and after activities), particularly halls serving rural areas which are used less frequently. This means that hirers let themselves in, are often responsible for putting out and stowing away the equipment they use and for cleaning the hall after use. Experience is that not all hirers clean up after themselves satisfactorily and trustees have expressed concern that not all hirers will comply with carrying out a higher level of cleaning on leaving.

a) **All halls** should:

- Provide sanitiser for hirers to put out at every entrance/exit and in meeting rooms. (Soap and water is acceptable but sanitiser often more practical).
- Post notices at every entrance/exit showing what is expected of users. Erect the "Catch It, Bin It, Kill It" poster and posters encouraging frequent handwashing, see Section 6. If the poster at **Appendix C** is laminated, the time can be given when the hall was last cleaned, but this is not

compulsory.

- Advise the cleaner/caretaker as to the extra cleaning required if someone is taken unwell on the premises with a suspected case of COVID-19. This requires disposable PPE and double bagging of PPE and cleaning materials afterwards, which must be stored for 72 hours securely prior to collection: See the link in Section 6 for decontamination in non-healthcare settings.
- Advise hirers bringing or using their own equipment which is stored at the hall that they will need to clean this for each session and before stowing it away, or ask their group members to bring their own clean equipment and avoid sharing it.

b) **Where a hall cannot arrange cleaning before every hire**, the appropriate way of discharging the trustees' responsibility and encouraging compliance is likely to be to:

- Require each hiring group to clean surfaces that their group might use **before** their own users arrive, to clean regularly used surfaces such as tabletops and sinks during the hire and to clean them again before they leave. Hirers could be asked to sign a record sheet confirming e.g. "I have cleaned before leaving all surfaces in the rooms used during hire", with the time.
- For the hall to ensure the hall's usual cleaning routine is followed e.g. for floors, with particular attention to keeping hand wash basins, door and toilet handles clean and provide cleaning supplies for use by hirers. This means the cleaner/caretaker (or volunteers or another contractor) will need to provide and check/replenish hand sanitiser, cleaning materials (including cleanser, spray disinfectant, washing up liquid, cloths or paper roll) and tissues and the cleaner or hirer removes waste to outside bins before the hall is next used. Supplies of soap and paper towels must be provided at toilet and kitchen sinks. Make clear to hirers how often the cleaner attends.
- Limit cleaning of some areas to staff and/or provide instructions to hirers, e.g. where there is a risk of damage or electrical apparatus is involved. For example, switches should be cleaned by cloth, not sprayed with disinfectant, rubberised or glued surfaces and upholstered surfaces can be damaged by frequent sprays or vigorous rubbing.

c) **Wash clothes regularly:** It is best to encourage people to wash clothes after attending an activity or event to reduce the risk of transmission.

d) **Use of toilets:** Inside toilets do not have to be made available to the public (which may conflict with safeguarding requirements and social distancing) or kept open when the hall is not in use. It is not compulsory for any public toilets (e.g. serving playing fields) to be opened but where they are Government Guidance for public toilets should be followed.

2.5 Hiring Arrangements

a) Halls should give priority to essential services, Pre-schools and schools should endeavor to arrange other hires around these. If that is not feasible without compromising COVID-19 Secure guidelines the hall may have to remain closed for other hirers.

b) Instruct booking secretaries to allow longer between hires, to allow either the cleaner/caretaker to clean before their arrival or hirers to arrive up to half an hour earlier in order to pre-clean for their own use.

c) The cleaner/caretaker will need to be given expected arrival times for each hirer or other arrangements made to check sufficient supplies of sanitiser, soap, paper towels and cleaning materials.

- d) During Step 3 social distancing will need to be maintained and vulnerable people protected. It is therefore unlikely that the full range of normal use will be possible. The committee will need to decide which hirers can begin to use the hall pending Government guidance that Steps 4 and 5 can be implemented. This will demand a risk-based approach. Points to help you work out which hires are permitted, not yet permitted or may require more management are given in **Appendix D**.
- e) Hirers will need to be given instructions, guidance and responsibility via special hiring conditions which should be attached to their usual hire agreement. These should be issued in writing and signed or accepted by the hirer in all cases. An electronic signature or email confirmation of the conditions is acceptable. See **Appendix E** for sample special hire conditions.
- f) Hirers should be encouraged to seat or stand people side-to-side, rather than face-to-face, whenever possible. Two empty seats (a distance of 2m if possible, or at least 1m with mitigation such as good ventilation) should be provided between each household group if seated. Where possible hirers should encourage people to stay in their household groups to reduce transmission. Sedbergh People's Hall, Cumbria, have issued photos to help their hirers work out how to arrange their meeting rooms. Drawings could be posted on noticeboards.
- g) Hirers should be encouraged to keep the hall well ventilated, opening doors (except internal fire doors) and windows as far as possible, and will need to remember to close them all for security on leaving. It may therefore be necessary for the caretaker or a volunteer to check the premises at night for the first few weeks, to ensure everyone is remembering. Fresh air is preferable to mechanical ventilation.
- h) Hirers should be encouraged to have regard as to whether people attending their activity are clinically vulnerable to COVID-19 and how they will address the need to keep them safe. At Step 3 it is expected that those over 70, who are more vulnerable and have been required to self-isolate for 12 weeks, but not in the shielding category, will wish to attend their usual community activities, so particular attention should be paid to the need to maintain social distancing with them. This is reflected in the Special Hiring Conditions at **Appendix E**.
- i) Hirers should be provided with a copy of the hall's COVID-19 Risk Assessment. You may wish to ask to see a copy of their own COVID-19 Risk Assessment. The sample at **Appendix G** can be shared with user groups. It is not compulsory that users complete their own – it is the premises and any play equipment which must be subject to a COVID-19 Risk Assessment.
- j) You and your hirers may wish to encourage those attending to bring their own Food and Drink e.g. water bottles for the time being, rather than making food and drink on the premises, to reduce work cleaning the kitchen. Users should also be encouraged to bring their own equipment where possible, e.g. crafts, keep fit, and can be encouraged to bring their own personal hand sanitiser, wipes, and tissues.
- k) Hirers should be asked to keep a note of the names and telephone number for everyone attending their activity and retain this for 3 weeks so that, in the event of a case, NHS Test and Trace can contact everyone the individual was in contact with. This is not a legal requirement, people are not obliged to provide their personal details but where they do that information should be kept securely so as to comply with GDPR (e.g. a password protected phone or tablet, a locked filing cabinet) and then destroyed.
- l) Government guidance asks venues to take steps to avoid people needing to unduly raise their voices to each other, e.g. playing music at loud volume so that normal conversation is difficult, so as to reduce the risk of transmission of the virus from aerosol and droplet transmission. This is addressed in **Appendix E**.
- m) Where part of the premises is leased to another organisation, or subject to an Occupation Licence,

that occupier would normally have the responsibility for the management of their facilities in accordance with the relevant Government guidance and will be expected co-operate with the hall managers to achieve safe use of communal areas.

2.6 Employees, self-employed people, and volunteers

a) Organisations have a specific duty of care to employees and, as they also have a duty of care to self-employed staff and volunteers, it is recommended that they are afforded the same level of protection as employees. Government guidance has been issued for Employers and that for offices and contact centres and 5 steps to working safely are the most appropriate for community halls (See links in Section 6). The key point for halls is that, in addition to carrying out the hall's ordinary risk assessment before re-opening, the hall should follow HSE advice for an Employer's Risk Assessment for COVID-19, in discussion with staff, which involves:

- Identifying what work activity or situations might cause transmission of the virus.
- Thinking about who could be at risk.
- Deciding how likely it is that someone could be exposed.
- Acting to remove the activity or situation, or if this is not possible, control the risk.

These points are addressed in the Sample COVID-19 Risk Assessment at **Appendix F**.

b) HSE guidance is that no one is obliged to work in an unsafe work environment and that in the risk assessment you should have particular regard to whether the people doing the work are especially vulnerable to COVID-19. If that is the case with your hall cleaner/caretaker, you may need to make alternative arrangements for the time being.

c) BEIS guidance and other references in Section 6 may help you address questions or concerns from employees or self-employed contractors about COVID-19.

d) If the hall has a resident caretaker, consider whether there are any implications when carrying out the COVID-19 Risk Assessment.

2.7 Performances

The arts industry has been badly affected by COVID-19 and will welcome efforts to accommodate performances. Key points in the Guidance issued by the Department for Culture, Media and Sport (DCMS) are given in **Appendix J**.

The National Rural Touring Forum has advised that in autumn 2020 promoters commit to advance sales only for rural touring arts, to avoid potential box office queues and facilitate social distancing.

2.8 Playgrounds, indoor exercise and outdoor sports areas

Playgrounds/play equipment and outdoor gym equipment must be subject to a COVID-19 risk assessment and mitigation measures before re-opening. Mitigation may include provision of a COVID-19 secure poster. The risk of COVID-19 may need to be weighed against the risk to unsupervised children ignoring signage or climbing over fencing if it remains closed. A sample poster is attached at **Appendix I**. See Section 6 for a link to the Government guidance.

Separate Government guidance is published for providers of outdoor sports and recreation facilities and for grassroots sports and gym and leisure facilities, which is reflected in **Appendix K**. See links in Section 6.

Sport and exercise should take place in accordance with guidance issued by the relevant governing body for the sport or activity to deal with COVID-19 risks. ACRE recommends village and community halls require hirers to comply with such governing body guidance, rather than try to adapt their own hiring conditions and policies for each type of activity.

2.9 Catering

Arrangements for catering will depend on the size and nature of the activity and the size and facilities of the kitchen. Common sense should be applied to achieve social distancing. For example, for short meetings people might be encouraged to bring their own water. For longer, small events, such as an art class, people might each use the kitchen to make their own refreshments and clean after themselves. Where refreshments are usually served from a hatch, such as WI or coffee mornings, a decision will need to be taken as to whether it is easier to manage social distancing through inviting people's household group to a hatch or buffet table or by table service (both may be required). For an interval bar, e.g. at a quiz, drinks might be pre-ordered and collected by household group by group. Community cafes and luncheon clubs for the elderly are advised to check Government guidance for cafes and restaurants.

2.10 Procedures if someone becomes unwell with COVID-19

a) A space should be designated into which anyone will be moved who becomes unwell at the hall with suspected COVID-19 symptoms until transport home or to hospital is available. Tissues and a bowl of warm soapy water for handwashing and paper towels should be provided. Tissues and paper towels should be disposed of into a plastic bag, which is sealed and placed in a secure place for 72 hours before being disposed of into the general rubbish collection. See **Appendix H**.

b) Other people that have attended the same activity should be asked for contact details and then to leave the premises. These details should be provided to NHS Test and Trace if requested. Provision of contact details is not compulsory.

c) A decontamination clean should be carried out in those parts of the premises they have used, in accordance with PHE guidance (see reference section). Disposable PPE equipment including gloves should be disposed of into a sealed, labelled or marked plastic bag and secured for 72 hours before rubbish is collected. The cleaner should launder all personal clothing worn on arrival home.

3. The re-opening of Pre-schools – Step 2

From 1st June – Pre-schools and nurseries were able to re-open and begin welcoming back all children below statutory school age. Separate guidance about this has been issued by ACRE. For hall committees who hire to Pre-schools and nurseries within the building, this will mean a more careful re-opening of the hall to other hirers or members of the public in order to address the anxiety of pre-school staff, parents and other hall users.

Points which need to be borne in mind when opening halls used by Pre-schools to other activities, are set out here:

Government guidance on wider opening of childcare settings advises them to avoid other people attending the premises unless essential: Within Pre-schools, children are encouraged only to mix with a group of up to 8 other children and one or two staff members, to minimise spread in the event of a COVID-19 case. "Limit external visitors to the setting and ensure they only come into the building when strictly necessary, for example if providing an essential service or essential support for a child's health and wellbeing." The usual safeguarding procedures also apply.

While the extent of the premises which are used by a Pre-school vary from hall to hall and cleaning or attending to safety issues in that part of the premises used by Pre-school could be regarded as an

essential service, it's best if such tasks are carried out when Pre-school are not on site, though that may not always be possible.

Where common areas serve other parts of a hall which are used by other hirers or the public at the same time as Pre-school is in place (such as entrance lobbies, corridors, kitchens, toilets), timing of arrangements will clearly need to be discussed with the Pre-school. For example, cleaning and servicing of these areas might be carried out when Pre-school staff and children are elsewhere on the premises. Hirers' arrival and departure times will either have to be changed so that they do not coincide with the staggered arrival and departure times implemented by Pre-schools, or a separate entrance/exit used e.g. fire exit or a separate waiting/queueing arrangement created outside.

Responsibility for cleaning door handles, basins and working surfaces by organisations or individuals not connected with the Pre-school will have to be established if common areas are used.

Where the space used by Pre-school during the day is normally used by another organisation later in the afternoon or evening, arrangements for cleaning within that area will have to be established. The Pre-school may prefer to undertake cleaning before children arrive, and other hirers may also prefer to do so themselves, if the hall's cleaner cannot attend before they do so.

4. Frequently Asked Questions

Q: Will our hall have to re-open when the Government says it can?

A: No – see Section 2.1 above. Some are only opening parts of their premises or certain activities, taking the view that slow start-up makes it easier to monitor. Some halls, e.g. with Pre-schools, have taken the view that wider re-opening in July would be too difficult, others the view that it would not be economic, others are using the closure period to complete maintenance works. If your hall is unlikely to re-open until e.g. September your trustees would need to meet (online or by phone) to take a decision that it would not be in the best interests of the charity to re-open in July when allowed to do so. Minute the reasons why, so that you can show that the matter has been carefully considered in the event of challenge e.g. by a local community group. In taking such a decision you should take into account the effect on vulnerable residents whom the hall is there to serve, their mental and physical wellbeing, your ability to provide safe premises and the financial implications for the charity. **Make sure you notify the insurer, as unoccupancy terms may apply after 4th July.**

Q: If an outbreak of COVID-19 is traced to our hall, will we, trustees, or staff, be held liable?

A: If those responsible for managing the hall use reasonable endeavours to ensure the hall is cleaned and maintained in accordance with the COVID-19 Secure Guidelines, have prepared a COVID-19 Risk Assessment, **see Appendix F**, and have written records of the action taken this should reduce very substantially the risk of being held liable. Providing this is the case, and any insurer requirements met, any liability should be addressed in the usual way by the hall's public liability cover and legal expenses cover. Not only would a claimant have to prove the committee had been negligent and that they caught the disease at the premises, they may be held to bear responsibility themselves by putting themselves in harm's way.

Q: Hirers want to use the hall but pay a reduced fee because their numbers will be lower, and they will be doing more cleaning. We cannot afford this, because we have fixed costs to pay and are having to arrange more cleaning too. Do we have to allow it to open at a reduced fee if it is going to cost us more than the income?

A: It is up to trustees or committees responsible for managing charitable halls to determine what is in the best interests of their hall charity in the light of these exceptional circumstances and predicted financial situation. See also Section 5 as to grants and funding.

Q: What do we do if someone wants to hire the hall for an event at which we think social distancing might not be observed, such as an 18th birthday party?

A: You will be entitled to refuse the booking. You might accept a booking for a future date with the caveat that it is subject to cancellation if Government guidance at the time would not permit it or it appeared requirements then in force would not be met. See **Appendix D**.

Q: Where can we obtain a disposable apron and quantities of cleaning materials at low cost?

A: If your usual suppliers, supermarkets, pharmacy, DIY stores or internet shopping cannot provide these try asking your local authority or ACRE Network member for the contact details for the local authority bulk purchasing arrangements for your area, which should be available to charitable, voluntary and community organisations. For decontamination purposes, a plastic apron without sleeves is adequate but halls have found cheap overalls from DIY outlets a good alternative.

Q: We are confused. When should sanitiser, soap and water or antibacterial wipes be used?

A: Provide what is most appropriate. Sanitiser tends to be more easily dispensed at entrances and exits, whereas soap and water easily used in kitchens and toilets. For general cleaning disposable cloths used with and warm, soapy water, paper rolls or spray disinfectant are adequate. If you are concerned that sanitiser will disappear, large bottles may avoid the problem and you could store it (in a cool place) and require each hirer to put it out or provide it. People can be encouraged to bring their own sanitiser, antibacterial wipes and tissues, because everyone is encouraged to wash their hands more often than usual, for 20 seconds using soap and water or hand sanitiser, particularly after coughing, sneezing and blowing their nose. Wipes must not be flushed down toilets, bins should be provided.

Cleaning:

Q: Our chairs have upholstered backs, seats, and arms, cleaning them between use would damage them and we are told sanitiser spray may leave a sticky residue. Should we buy plastic chairs instead? They are not so comfortable. Should we use a "misting device"?

Q: Our Pre-school asks if we should clean the walls before others use the hall, as children tend to touch them?

Q: Our yoga teacher asks if she needs to clean the floor after the class? They bring their own mats, but people tend to touch the floor, put their water bottle on it.

Q: The room used by our Pilates class has a carpeted floor. Should we disinfect the carpet between each use or replace it?

A: These are all a matter of risk assessment. The emphasis is on cleaning **frequently touched surfaces and cleaning hands regularly**. These surfaces all tend to be touched less frequently than, for example, tabletops, door, and toilet handles. Rather than going to the expense of buying new, less comfortable chairs or a misting device or changing flooring you could consider asking hirers to be extra vigilant about asking people not to attend if unwell, regular use of hand sanitiser, especially before getting out and stowing these chairs, to use plastic gloves, or rotating their use (so there is a day or two between use of each chair). Some fabrics are dry clean only, so a sanitiser spray should not be used on them. What benefits would a misting device have i.e. would it save wiping regularly used surfaces or staff time? How long is required before rooms can be used again, particularly by anyone with an allergy or asthma, might the chemicals affect them? Pre-schools are encouraging children to wash hands regularly and other hirers are unlikely to touch the same part of a wall as a small child. Those attending yoga and Pilates should bring their own mats, reducing contact with the floor. Unless there is a parent and toddler class using the hall after yoga or Pilates, it is unlikely other hirers will touch the floor. If someone developed Covid-19 symptoms who had recently been at the class, it would then be necessary to consider cleaning the carpet or closing the room for 72 hours.

Q: Our cleaner/volunteers are aged over 70, so in the vulnerable category who are recommended to stay at home as far as possible. What should we do?

A: It is essential to risk assess and discuss the situation with them in the light of their circumstances. You must take particular care to minimise contact with others outside their household. For paid people loss of income will be an issue so perhaps you can arrange duties to avoid contact with others e.g. cleaning when no or few people are on the premises. For volunteers, social contact with other people may be very important after lockdown so it will be essential to ensure everyone maintains 2m social distancing and good hygiene when they are present.

Q: Do we need to ask every hirer to complete their own Covid-19 Risk Assessment?

A: This is not compulsory, but it may help everybody feel safer if they do so.

Q: Do we need to clean the hall if it has not been used for 72 hours?

A: A Risk Assessment may indicate not as the virus is not thought to survive longer than this on surfaces. However, it would encourage a hirer to maintain a good cleaning routine if they were to clean regularly used surfaces before starting.

Q: We are keen to avoid using disposable gloves and aprons for ordinary cleaning. Can we use washable/wipeable items?

A: Yes. Disposable ones are only required if cleaning after a suspected case.

5. Finances

- a) **Charitable Community Halls and Community Amateur Sports Clubs (CASCs):** Additional cleaning, provision of sanitiser etc will incur costs and income may be reduced for a considerable period as the usual pattern of hire may not be resumed until 2021. **The Retail, Hospitality & Leisure Grant (RHL Grant) of £10,000 (£25,000 for premises with a rateable value over £15,000) is available to charitable village halls and sports buildings from your Local Authority.** This can be used to meet such costs and any costs incurred in re-opening, as well as fixed costs incurred during closure. Under the Extended Retail Discount (ERD) charitable halls should also receive 100% rate relief for 2020/21. Please contact your ACRE Network member if you have any queries about accessing such support. **Applications should be made as soon as possible.**
- b) **Church Halls and Parish/Town Council Halls:** A hall which is ineligible for the RHL Grant or ERD e.g. a church hall or parish council run hall may seek Discretionary Grant support from their local authority. **Applications should be made as soon as possible** because some authorities are applying time limits.

Forward Planning: In view of the long term effect on hire income it will be particularly important that managers revise budgetary projections to the end of the 2020/21 financial year in order to identify whether the RHL Grant will be sufficient to cover any deficit. This needs to be done at an early stage because, if its own free reserves are insufficient, the hall will need to allow time for approaches to be made for financial support. Note that any restricted funds held by a charity are unlikely to be available for this purpose, such as donations or grants received for capital works. Financial support may be available from parish and town councils or from local charitable or National Lottery funds where a charity is facing financial hardship and risk of closure because of COVID-19. A crowdfunding campaign might be launched.

Thank you to Louise Beaton, ACRE Board member and Community Halls Consultant for producing this Information Sheet for ACRE.

We are grateful to ACRE Network members and hall committees who have kindly shared their own documents for contribution to this Guidance. Also, to all members of the ACRE team for their support.

All comments regarding this Information Sheet are welcome.

[Deborah Clarke](#), ACRE

Appendix A

Before re-opening the hall, go through the following checklist:

	Task	Done
1.	Advise the hall's insurers whether/when the premises will be re-opening and check any requirements.	
2.	Check the security code or key logs are up to date.	
3.	If a Pre-school is using the premises, check any adjustments to hire arrangements needed for other hirers e.g. arrival/departure times, access to kitchen or toilets. (See Section 3 above)	
4.	Carry out a COVID-19 Risk Assessment in consultation with any employees, if you have any. (See Appendix F) Provide to hirers.	
5.	Consider whether additional cleaning is required, where and when. Consider arrangements for moving, stowing and cleaning equipment. A thorough clean of the hall should be undertaken before it re-opens and the subsequent cleaning regime to follow will need to be identified. Ordinary household products can be used.	
6.	Discuss with your caretaker/cleaner/contractor any changes in work patterns required to ensure the hall meets the COVID-19 Secure guidelines. HSE provides a leaflet of things to discuss with an employee. Agree any changes in writing with cleaners/employees.	
7.	Ensure the caretaker/cleaner has appropriate PPE: Ordinary overalls and plastic gloves are usually sufficient. The overalls should be taken off when leaving and washed. A set of disposable PPE is also needed in case decontamination is required. Contractors should use their own equipment, but an employee should be provided with the necessary equipment.	
8.	Flush through the water system, five minutes for each tap or shower head, to remove any risk of legionella or other bacterial build up and ensure U bends are full. Keep clear of spray (place showerheads in a container of water while flushing to avoid spray) and wipe up afterwards with household disinfectant. Check hot water system is set at a minimum 50C. (See Chartered Institute of Environmental Health Officers guidance, link in Section 6).	
9.	Carry out the routine health and safety risk assessment of the whole premises. Check the electrical inspection (required every 5 years) and PAT testing are up to date and visually check leads. Ensure any fridge/freezer is working at correct temperature, the heating and hot water system operational. Ensure internet is working. Cut grass. Identify and address any items requiring attention e.g. light bulbs failed, trip hazards. (For more information see ACRE Village Hall Information Sheet 15: Health and Safety legislation and Village Halls)	
10.	Ensure the Fire Safety Risk Assessment and routine fire safety checks are up to date e.g. fire exit doors are clear, not sticking, fire extinguishers serviced, emergency lighting system and any alarm system are working. (For more information see ACRE Village Hall Information Sheet 37: Fire Safety in Village Halls)	
11.	Provide hand wash and drying facilities: Hand sanitiser needs to be provided at entrance and exit routes. Tissues, soap, toilet rolls, paper towels or hand driers and cleaning products, including disposable cloths or	

	paper roll, should be provided.	
12.	Consider "Engaged/Vacant" signage at the entrance to male and female toilets to limit the number of people within these areas at any one time and similar signage at other "pinch points".	
13.	Provide signage: The certificate that the premises comply with COVID-19 secure guidelines and that people should not enter if they have symptoms should be displayed at entrances (see Appendix C). The PHE posters encouraging frequent, good handwashing techniques and hygiene "Catch It, Bin It, Kill It" available on the HSE and PHE websites should be displayed. (See Section 6)	
14.	Think about social distancing arrangements in corridors and at entrance and exits: Consider using tape to mark out a 2m distance outside and inside the entrance, and outside fire exits, to encourage people to wait their turn to enter and exit the hall.	
15.	Prepare special hire conditions and instruct booking secretary as to any changes in the Hall's hire policy during re-opening, i.e. which bookings can be accepted, any changes to charges, and to provide hirers with a copy of the COVID- 19 secure poster. (See Appendices C, D and E)	
16.	Identify designated space for someone with suspected COVID-19	
17.	Consider Marketing and Communications: Ensure the website has up to date information, including special conditions of hire. Advertise availability as appropriate. Ensure answerphone message is up to date.	
18.	Review budget forecast for 2020-21.	

Appendix B

COVID-19 Re-opening Questionnaire

Adaptation of document shared by Witcham Village Hall, Cambridgeshire

In order for Trustees to make a robust plan of action in readiness for any proposed opening of Village Halls by the Government, it would be extremely helpful if you could complete and return the following questionnaire by2020. This can either be via email or paper versions can be left at:

Name of Group

Name of person completing form:

Address:

Postcode:

Email:

Home Tel:

Mobile Tel:

Please tick appropriate answer		
1	How likely are you to return to use the hall?	Yes No Maybe
2	If you wish to return when would you consider returning?	July Aug Sept Oct Later
3	When you return would you wish to hire the hall for normal sessions or would you like something different?	Normal Different
4	Which day of the week do you prefer to hire the hall?	
5	What is your preferred time for hire? Must include time for: <ul style="list-style-type: none">• set up• pack away time• sanitisation of groups personal equipment stored at hall	From To
6	Can you be flexible with hire times?	Yes No
7	If only a morning, afternoon, or evening slot available which would you prefer?	Morning Afternoon Evening
8	Which rooms are required? Please note – rooms not required will be secured from entry	Main hall Small room Kitchen Toilets Store

9	Premises equipment needed. Specific numbers will enable efficient use of cleaner's time.	Number of Chairs Number of Tables List specific kitchen equipment Use of dishwasher
10	All equipment stored at hall will need to be sanitised before and after use and will be the responsibility of the hirer to ensure this takes place after every session.	Name of person taking responsibility
11	Will Group require use of Car Park/ garden or field? Please state which area(s)	Yes No
12	Any further comments: -	

PLEASE NOTE:

- a) The hall will be: [thoroughly sanitised between hires by cleaner] [cleaned once per day by the hall cleaner – regularly used surfaces and toilets] [cleaned thoroughly once a week by the hall cleaner, including floors]. The hiring group will be responsible for cleaning surfaces used regularly during and at the end of hire. Sanitiser or soap and water will be available on entry and exit to the hall
- b) Access will only be allowed during the specific time of hire.
- c) Persons waiting to collect hall users should adhere to social distancing at front of building or remain in vehicle.
- d) Optional [A group risk assessment will be required for hall usage; a sample is provided]
- e) Isolation facilities will be available in [the changing room area] at back of hall.
- f) The hire charge of the hall will remain the same as before the outbreak for a period of [weeks]. All organisations and groups will be given due warning of any increase.

To comply with Government advice, the Village Hall Trustees wish to ensure all users can be assured of a safe and sanitised environment in which to return and access our facilities. A risk assessment will be available but may be subject to change at any time in line with Government and Village Hall Guidelines.

The Village Hall uses personal data for the purposes of managing hall bookings, finances, events, and publicity.

Please tick box to indicate that you agree to us holding your data for booking purposes

HELP KEEP THIS HALL COVID-19 SECURE

- 1. You must not enter if you or anyone in your household has COVID-19 symptoms.**
- 2. If you develop COVID-19 symptoms within 7 days** of visiting these premises alert NHS Track and Trace. Alert the hall cleaner on [insert a contact number] and alert the organiser of the activity you attended.
- 3. Maintain 2 metres social distancing as far as possible:** Wait behind the marked lines as you go through the entrance hall to your activity and observe the one-way system marked.
- 4. Use the hand sanitiser provided** on entering the premises. Clean your hands often. Soap and paper towels are provided.
- 5. Avoid touching your face, nose, or eyes.** Clean your hands if you do.
- 6. "Catch it, Bin it, Kill it".** Tissues should be disposed of into one of the rubbish bags provided. Then wash your hands.
- 7. Check the organisers of your activity have cleaned door handles, tables, other equipment, sinks and surfaces before you arrived.** Keep them clean. We [do our best to/cannot] clean all surfaces at the hall between each hire.
- 8. Take turns to use confined spaces such as corridors, kitchen and toilet areas.** Standing or sitting next to someone is lower risk than opposite them. Briefly passing another person in a confined space is low risk.
- 9. Keep the hall well ventilated. Close doors and windows on leaving.**
- 10. Wash your clothes when you get home** to reduce risk of transmission.

This hall was last cleaned at [insert time]

am/pm/eve on [insert date]

Appendix D

Management of Social Distancing at Community Facilities and Activities A Risk Based approach

Following the end of lockdown community groups need to know whether or not they can once again use community facilities to hold their usual – or a version of their usual – activities and, if so, what conditions may be appropriate so as to reduce the risk of spreading infection and address fear.

The following takes a risk-based approach to a complex situation, bearing in mind: the hundreds of different kinds of organised activities which take place in or around village and community halls and playing fields; the important need to address isolation, loneliness and mental health issues and take advantage of the warmer summer months; the needs of families with young people; the need to enable people to remain fit and healthy; and the need for people who normally earn a living around community facilities to do so. This note cannot cover every situation and is intended only as a guide to help halls draw up their own policy towards accepting bookings, with tips shared by halls, so that the Booking Secretary knows how to respond to requests.

The following points should be considered in risk assessing whether each potential hirer can meet the COVID-19 secure guidelines.

- Can attendance at indoor activities be limited to the capacity figures the hall sets and will the organiser be able or willing to comply with social distancing requirements (see Section 2.2)? What arrangements would be made if more people attend than the room has capacity for? A meeting which usually takes place in a committee room may need to be moved to a larger space to allow social distancing.
- The likely age of those attending. If 70 or over, or if clinically vulnerable, can arrangements be made to ensure 2m social distancing **throughout** their use of the premises, including when using toilets. (The clinically vulnerable are advised to shield until 31st July).
- Are the organisers willing to clean regularly used surfaces before the event, while it takes place and before leaving?
- If activities are to be held outdoors what arrangements will be made in the event of rain or a cold snap, e.g. tents, umbrellas?
- Will other organisations be using the premises at the same time? If so, what arrangements will be made to avoid contact between the different groups e.g. staggered start/finish times, Occupied/vacant signage for toilets?
- If an activity will take place outside, will it require access to toilets? If so, a charge would be reasonable to help defray cleaning and other costs such as water rates and insurance.
- Will it comply with any Government Guidance for specific activities (eg places of worship if a religious ceremony is to take place, guesthouses and hostels if overnight accommodation such as cubs).

The following are all subject to social distancing, cleaning and hygiene being met:

Group 1: Permitted

- **Activities which provide essential services, or otherwise already permitted:** e.g. Pre-schools, food and medicine distribution, making PPE, Pop-Up COVID-19 testing. Retail activities such as Community Shops and indoor markets (e.g. Farmers Markets, Craft Markets, and Antique Fairs) must comply with Government Guidance for the retail sector.

- **Use by Schools:** Guidance has kindly been provided by the Charity Commission, which is available from your Network member if required.
- **Office and certain other forms of employment:** e.g. Building work to the hall, Parish Council, or other office, hire by local companies or organisations for training events, distribution purposes, video recording/transmission. A hairdresser or health therapist (providing they are not offering a service which is not yet allowed to re-open such as nails). The relevant Government Guidance for that type of employment should be observed.
- **Activities which can be held outdoors and where social distancing can be readily achieved:** e.g. tennis, bowls, football training, keep fit type classes, dog training classes, dancing classes. Equipment should be cleaned regularly e.g. gate latches, handles, balls etc. DCMS guidance permits personal training or coaching if people are able to follow social distancing guidelines. People who play team sports can now train together (e.g. hold fitness sessions). See **Appendix K** and link to DCMS guidance in Section 6.
- **Activities held indoors where smaller numbers of people attend:** For example: seated activities and meetings held in a large hall such as art classes, history group, dog training classes, weight loss groups, Parish Council meetings. While it is recommended that meetings continue to take place digitally rather than face-to-face, where possible, the Government Guidance for community facilities specifically permits meetings of civic, political or community groups (e.g. parish council, ward meeting of political party, charity board of trustees), MP or councillor surgery/drop in sessions. A combination may be feasible: A face-to-face meeting may help those who struggle with digital technology to participate or attend, while others participate digitally.
- **Libraries and book lending schemes:** Users should be asked to clean hands on arrival, regularly if browsing and when leaving. Returned books should be placed in a box for 72 hours before placing back on display, cash donations placed in a bowl and handled by one person wearing gloves.

Group 2: Requiring more careful management by organisers

- **Small events providing catering:** e.g. coffee mornings, pop-up cafés or luncheon clubs, where seating may be out of doors and/or well-spaced. Takeaway drink or food can be provided from a room directly accessed from outside. Government Guidance for pubs, cafes and restaurants may be helpful in working out how to run these safely. Community cafes will be required to comply with that Guidance. NB Special arrangements should be made for vulnerable people in the shielding category who wish to attend, to enable participation and avoid their continued isolation.
- **Playing games at tables:** While the older age profile and difficulty complying with social distancing at card tables (normally 67cm) has led the English Bridge Union to advise Bridge Clubs against re-opening for a period, an informal local group may be able to arrange social distancing if household groups always play together and slightly larger tables are used. Using new cards or cleaning them is advisable. For games such as scrabble, tiles would need to be cleaned and not touched by other players.
- **Activities for children and young people:** e.g. cubs, youth clubs, railway modelling club, Sunday school, picnics or BBQs in outdoor areas. For summer holiday playschemes Government

guidance for out-of-school settings applies. For activities with toddlers, soft toys should be avoided, parents can be encouraged to bring toys which are not shared with other children. Pre-school type arrangements are appropriate i.e. focus on hand cleanliness, arranging the room into small groups. However, it has to be recognised social distancing will be difficult so arrangements may be needed for any families with clinically vulnerable close relatives who attend.

- **Public meetings and public consultation events (e.g. planning):** A one-way system can be created for exhibitions. For large meetings attendees can be asked to use the furthest seat from the entrance first unless hard of hearing, handouts provided at the end rather than at the beginning. Contact details should be taken (for NHS Test and Trace) by one person so attendees do not share a pen. Digital participation can also be encouraged.
- **Other larger events including those with seated audiences:** e.g. gardening club, film show, bingo, quiz night. Attendees can be asked to use the furthest seats from the entrance first unless hard of hearing. A booking system can be encouraged to manage numbers and obtain contact details for NHS Test and Trace.
- **Weddings and wedding receptions:** Weddings and similar life cycle religious ceremonies are permitted where attended by up to 30 persons. Recorded music is recommended. A musician may play a non-wind instrument. From 1st August sit down wedding receptions are permitted for no more than 30 people. See also Government guidance on Places of Worship. Government guidance for cafes and restaurants may be helpful in relation to catering.
- **Celebration events:** Government guidance is that community facilities should not facilitate large gatherings or celebrations at present. Events such as baptism or funeral teas, wedding anniversary lunches, are therefore best accepted in accordance with the limit of 30 for sit down wedding receptions. For private events no more than 30 are permitted if outdoor areas may be used. Note that loud music or broadcasts are not currently permitted, the purpose being to avoid aerosol dispersal. Consequently it is not yet advisable to hire for teenage or adult birthday parties.
- **Social Clubs and bars:** These may open in accordance with Government guidance for pubs. They may also provide takeaway refreshments from a room accessed directly from outside. Games such as darts and snooker are discouraged in the Government guidance for pubs. However, they can be permitted if not played in a Social Club or bar but as an activity in their own right or e.g. at a Youth Club.
- **Indoor sport and exercise and dancing classes:** Activities such as yoga, keep fit, badminton, table tennis, indoor bowls, dancing classes, and School PE lessons are permitted indoors from 25th July. These should be held in accordance with the Government guidance, summarized in **Appendix K**, and any guidance issued by the relevant governing body for sport. Energetic activities such as Zumba and circuit training are subject to tighter capacity and ventilation requirements.
- **Indoor Performances, Rehearsals, broadcasts:** Rehearsals, filming and broadcasting of music, drama and dancing will shortly be permitted, including professional touring performances, amateur dramatics, pantomime groups, children's entertainers, band practices without woodwind or brass instruments (unless played by professionals). These should be held in accordance with the Government guidance for performing arts, summarized in **Appendix J**.
- **Outdoor Performances and events:** See **Appendix J**.

- **Children's birthday parties:** Many families do not have the space for this at home. While they are not banned from taking place at community facilities, large gatherings or celebrations are not permitted and the maximum allowed is 30 for an outdoor event organised by a private individual (including in private gardens). Managing social distancing, tea and hand washing for a small group of children would be easier so a lower capacity limit advisable, e.g. no more than 12 children plus supervising adults. The number would depend on factors such as size of room, age group, whether all already attending the same school and used to group working, whether one of the supervisors is used to managing social distancing etc in a school or Pre-school, whether a children's entertainer will perform (permitted from 1st August). Children's entertainers need to get back to work and will have plans for managing social distancing and encouraging hand washing, so a good option for those that can afford it.

Group 3: Not permitted at 25th July, awaits further Government guidance:

- **Singing:** Including choir practice, congregations, and performance.
- **Woodwind and brass instrument rehearsals and performances by amateurs.**
- **Outdoor events:** If more than 30 people will attend and the event is not organised by a charity, public body, business, or political organization in compliance with Covid-19 Secure guidelines.
- **Dances and discos:** Nightclubs are not permitted to open. Loud music is not permitted, and performers are advised not to encourage impromptu dancing by audiences.

There has been some concern by trustees about how social distancing applies at community halls and confusion about the way different Government Guidance applies.

The following may help:

1. **Trustees** of Village Halls are unlikely to be at risk if they have undertaken and followed a COVID-19 Risk Assessment before re-opening their Halls, unless the activity is on the specific 'banned' list that is referred to in Regulation 4 (and regularly amended).
2. Risk under the 'crisis regulations' falls to the **event organiser**. If a **hirer, the event organiser**, does not feel the Hall is in a condition that enables them to comply, they should not make the booking.
3. **Trustees and managers** of Village Halls will, of course, want to ensure that their premises make it as easy as possible for both hirers and individuals to comply with relevant Guidance through the provision of adequate handwashing, signage, spacing/capacity guidelines, multiple small tables etc. specific to their Hall. The manner or extent to which managers choose to do this is unlikely to alter the risk for them under the regulations.
4. **Hirers** must commit themselves to operating in a COVID-19 Secure way by following the Government's Guidance in force for their activity. The Government guidance says: "if organising an activity, you should carry out a COVID-19 risk assessment to identify actions which could minimise the risk of transmission".
5. **Trustees and managers** of Halls should follow good practice themselves and avoid creating the conditions for the spread of COVID-19 in their community. For this reason, they will want to avoid letting to any **hirer** where there may be an obvious risk of the Guidance being hard to comply with.

6. In order to assure themselves on 4, above, trustees of Halls should ensure **hirers** inform all participating **individuals** that they must adhere to social distancing guidelines. In general people are being advised to only meet indoors in groups of up to 2 households or, outdoors, meet in a group of up to 6 people from different households, following social distancing guidelines as far as possible. Those in single adult households can form a support bubble with another household. *The responsibility rests with the **individual** to comply and with the **hirer** (the event organiser) to have carried out a risk assessment and operated the event under COVID-19 Secure guidelines to make it possible* e.g. by laying out seats or tables so as to enable household groups to achieve social distancing from the next group. For example, at a family quiz household groups might be invited to sit at one table, 2m from the next table. At bingo, a “bubble” might sit side by side, separated from the next group. The aim is to contain risk of virus spread to small groups.

7. The Government guidance for **individuals** advises: “ More generally, you can continue to meet in larger groups if necessary for work, voluntary or charitable services, education, childcare or training, elite sporting competition or training, to fulfil legal obligations,”; “ If taking part in activities with larger groups, you should take particular care to follow social distancing guidelines.”; “you should not hold or attend celebrations of any size (such as parties) where it’s difficult to maintain social distancing” and “limit social interaction with anyone outside the group you are attending a place with”. These do not stop community activities nor people holding conversations in the way many are now used to doing while social distancing in the street, shops or at work: Common sense can be applied.

Appendix E

Sample Special Conditions of Hire during COVID-19

Note: These conditions are supplemental to, not a replacement for, the hall's ordinary conditions of hire. (See also ACRE's Model Hiring Agreement)

SC1:

You, the hirer, will be responsible for ensuring those attending your activity or event comply with the COVID-19 Secure Guidelines while entering and occupying the hall, as shown on the attached poster which is also displayed at the hall entrance, in particular using the hand sanitiser supplied when entering the hall and after using tissues.

SC2:

You undertake to comply with the actions identified in the hall's risk assessment, of which you have been provided with a copy.

SC3:

EITHER: You will be responsible for cleaning door handles, light switches, window catches, equipment, toilet handles and seats, wash basins and all surfaces likely to be used during your period of hire **before** other members of your group or organisation arrive and to keep the premises clean through regular cleaning of surfaces during your hire, paying particular attention to wash hand basins and kitchen sinks (if used), using either the products supplied (which will be in a clearly accessible location) or your own ordinary domestic products. You will be required to clean again on leaving.

OR

The hall will be cleaned before your arrive and you will be responsible for cleaning all regularly used surfaces during your period of hire (including tables, wash hand basins, door handles) using either the products supplied or your own ordinary domestic products.

Please take care cleaning electrical equipment. Use cloths - do not spray!

SC4:

You will make sure that everyone likely to attend your activity or event understands that they **MUST NOT DO SO** if they or anyone in their household has had COVID-19 symptoms in the last 7 days, and that if they develop symptoms within 7 days of visiting the premises they **MUST** use the Test, Track and Trace system to alert others with whom they have been in contact.

SC5:

You will keep the premises well ventilated throughout your hire, with windows and doors (except fire doors) open as far as convenient. You will be responsible for ensuring they are all securely closed on leaving.

SC6:

You will ensure that no more than [insert number] people attend your activity/event, in order that social distancing can be maintained. You will ensure that everyone attending maintains 2m social distancing while waiting to enter the premises, observes the one-way system within the premises, and as far as

possible observes social distancing of 1m plus mitigation measures when using more confined areas (e.g. moving and stowing equipment, accessing toilets) which should be kept as brief as possible. You will make sure that no more than [e.g. two] people use each suite of toilets at one time.

SC7:

You will take particular care to ensure that social distancing is maintained for any persons aged 70 or over or likely to be clinically more vulnerable to COVID-19, including for example keeping a 2m distance around them when going in and out of rooms and ensuring they can access the toilets, kitchen or other confined areas without others being present. For some people, passing another person in a confined space is less risky, but for older people that should be avoided.

SC8:

You will position furniture or the arrangement of the room as far as possible to facilitate social distancing of 2m between individual people or groups of up to two households or 1m with mitigation measures such as: seating side by side, with at least one empty chair between each person or household group, rather than face-to-face, and good ventilation. If tables are being used, you will place them so as to maintain social distancing across the table between people from different household groups who are face-to-face e.g. using a wide U-shape [insert or attach drawing or photo].

SC9:

You are asked to keep a record of the name and contact telephone number or email of all those who attend your event for a period of 3 weeks after the event and provide the record to NHS Track and trace if required. (People are not obliged to provide details)

SC10:

You will be responsible for the disposal of all rubbish created during your hire, including tissues and cleaning cloths, [in the rubbish bags provided insert location before you leave the hall] or [taking all rubbish away with you when you leave the hall].

SC11:

[You will encourage users to bring their own drinks and food] or [You will be responsible, if drinks or food are made, for ensuring that all crockery and cutlery is washed in hot soapy water, dried and stowed away. You will bring your own clean tea towels, so as to reduce risk of contamination between hirers, and take them away. We will provide washing up liquid and washing up cloths.]

SC12:

We will have the right to close the hall if there are safety concerns relating to COVID-19, for example, if someone who has attended the hall develops symptoms and thorough cleansing is required or if it is reported that the Special Hiring Conditions above are not being complied with, whether by you or by other hirers, or in the event that public buildings are asked or required to close again. If this is necessary, we will do our best to inform you promptly and you will not be charged for this hire.

SC13:

In the event of someone becoming unwell with suspected Covid-19 symptoms while at the hall you should remove them to the designated safe area which is []. Provide tissues and a bin or plastic

bag, and a bowl of warm soapy water for handwashing. Ask others in your group to provide contact details if you do not have them and then leave the premises, observing the usual hand sanitising and social distancing precautions, and advise them to launder their clothes when they arrive home. Inform the hall cleaner on [insert contact no:].

SC14: For events with more than 30 people you will take additional steps to ensure the safety of the public in relation to COVID-19 and prevent large gatherings or mass events from taking place, for example by operating a booking system or providing attendants or stewards who will ask people to seat themselves furthest from the entrance on arrival, to exit closest to the exits first and invite people to use toilets in the interval row by row.

SC15: In order to avoid risk of aerosol or droplet transmission you must take steps to avoid people needing to unduly raise their voices to each other, e.g. refrain from playing music or broadcasts at a volume which makes normal conversation difficult.

SC16:

Other special points as appropriate.

E.g. Where a sports, exercise or performing arts activity takes place:

[You will organise your activity in accordance with guidance issued by the relevant governing body for your sport or activity]

E.g. Where a group uses their own equipment:

[You will ask those attending to bring their own equipment and not share it with other members] or [You will avoid using equipment, which is difficult to clean, as far as possible. You will ensure that any equipment you provide is cleaned before use and before being stored in the hall's cupboards].

E.g. [The hall is equipped with passive infra-red detectors which means that lights and taps come on automatically in the following areas: Please remind people not to touch these switches or taps.]

E.g. [You will not attempt to clean the following items, which will be the responsibility of the hall cleaner]

Appendices' F & G are available as separate documents

Appendix H

Covid-19 First Aid Box

Contents list kindly provided by Ashenground Community Centre, Sussex

- Face mask (covering) & pair of plastic gloves x 2 – each set in a plastic bag (for responder and patient)
- Plastic face shield – for the responder
- Pocket pack of tissues
- Hand soap in pump dispenser
- Small hand sanitiser gel
- Disposable apron e.g. plastic sleeveless or cheap overalls
- Small packet anti-bacterial wipes
- Rubbish bags x 2 (so disposables can be double-bagged). The outer one marked e.g. "Covid waste".
- Washing up bowl for handwashing

A plastic chair has been placed in the isolation space with a notice above.

Laminated instructions for how to respond are attached to the box and a laminated copy of this sheet is in the box.

All hall users are made aware of this box when they first use the facilities.

Appendix I

Help Keep this Playground and Play Equipment COVID-19 Secure

This Playground is not supervised, and equipment is not regularly cleaned.

- **Do not use this equipment if you are unwell.**
- **Social distancing of 2m MUST always be maintained (or 1m with risk mitigation where 2m is not possible).**
- **Only one child is allowed on each piece of equipment at a time.**
- **No eating or drinking in the playground.**
- **Parents/Carers: You will need to clean the equipment before your child uses it. Use hand sanitiser or wipes to clean your children's hands before and after use.**
- **Do not touch your face. Remember to cough or sneeze into a tissue. Take tissues home or put them into the bins provided (use an arm if a tissue is not available).**
- **Children's clothes should be washed when they get home.**
- **Families with clinically vulnerable members: Do NOT use the equipment without first cleaning it.**

Appendix J

Performances in Village and Community Halls

This Appendix contains key points from the Government guidance as they relate to performance activities in village and community halls. The important 5 points of the COVID-19 Secure guidelines set out in Section 2.1 of the ACRE Information Sheet should be in place and are not repeated here.

A village hall which has undertaken a COVID-19 risk assessment and is following the steps identified to minimise transmission should satisfy most points in the Government guidance for performance, the full text of which is contained here:

<https://www.gov.uk/guidance/working-safely-during-coronavirus-covid-19/performing-arts>.

DCMS have developed a **five-stage roadmap** to bring performing arts back safely, as follows:

- **Stage One** - Rehearsal and training (no audiences)
- **Stage Two** - Performances for broadcast and recording purposes
- **Stage Three** - Performances outdoors with an audience (pilots for indoor performances taking place in some locations)
- **Stage Four** - Performances allowed indoors and outdoors (but with a limited socially distanced audience indoors)
- **Stage Five** - Performances allowed indoors / outdoors (with a fuller audience indoors)

From 11th July Stage 3 applies. Musicians, dancers and actors and technical teams can resume training, rehearsals and recorded performances where they wish and are able to. This includes amateurs as well as professionals. Amateurs and volunteers connected with performances are encouraged to follow the Government guidance, which applies to a very wide range of performance activity. **Film shows are already permitted.**

From 25th July Dancing classes can reopen and should follow [guidance for providers of grassroots sport and gym/leisure facilities](#).

From, 1st August Stage 4 applies and indoor performances can recommence (including children's entertainers, touring arts and amateur performances), subject to audiences, performances and venues maintaining social distancing requirements.

Who Might be at risk?

In the context of a village hall this could be somebody taking part in a performance, a related activity or an audience member, a visiting professional e.g. in a touring company. If clinically vulnerable or higher risk individuals would normally take part or attend, consider whether they can do so from home, e.g. in rehearsals or by recording performances.

Alternatively, they might be given the safest roles or seating which enable them to maintain social distancing (preferably 2m, or 1m with robust risk mitigation). If they cannot maintain social distancing this may not involve an acceptable level of risk.

Key Points

1. **Risk assessment:** Bear in mind that the Government guidance on performance says: "Risk assessment is not about creating huge amounts of paperwork, but rather about identifying sensible measures to control the risks in your workplace."
2. **Singing and playing wind and brass instruments:** Should only be performed in the presence of an audience for the time being by professionals owing to higher transmission risk. (Research is ongoing). Non-professionals should currently not engage in singing or playing wind and brass instruments with other people, so brass band rehearsals, singing by amateur groups, a congregation or audience participation should not take place.
3. **Communicate with those using the hall or outdoor areas for performance activities** to ensure the COVID-19 secure guidelines are met. Providing a copy of the hall's own COVID-19 risk assessment showing the measures you are adopting (e.g. your cleaning, entrance/exit, "pinch point" control arrangements) should help them work out what additional measures they need to take, if any.
4. **Communication to the public:** Provide clear guidance on social distancing and hygiene to visitors before arrival, for example by email when purchasing tickets, and on marketing and websites.
5. **Food, drink and retail purchases:** Consider allowing guests to pre-order and collect refreshments at designated points to reduce queues and pinch points or adopting seat service at intervals. Consider providing programmes in digital format. See also the [guidance for restaurants and bars](#).
6. **Noise:** When the public are attending performances, organisers should ensure that steps are taken to avoid audiences needing to unduly raise their voices to each other. This includes avoiding playing music or broadcasts at a volume that makes normal conversation difficult, e.g. during performance intervals. This is to avoid increased risk of transmission from aerosol and droplet transmission.
7. **Cleaning:** Performances should be scheduled to allow sufficient time to undertake cleaning before the next audience arrives.
8. **Where performances or events are likely to have more than 30 people,** the organisers need to take additional steps to ensure the safety of the public and prevent large gatherings or mass events from taking place. The Government guidance for performing arts should be consulted to ensure appropriate measures are put in place. Note that gatherings of more than 30 people outdoors are currently only permitted where organised by businesses, charities, public bodies, or political groups.
9. **Those organising performance activities** need to ensure social distancing can be maintained by working out the maximum capacity that is appropriate. i.e. it may differ if the activity is static, such as a band rehearsal, or requires movement, such as a ballet class). They may need to consider whether a stage is big enough to rehearse, pay attention to ventilation and sufficient circulation space e.g. between any teachers and classes.
10. **A booking system will be needed to manage attendances or ticket sales,** preferably online or by phone. The National Rural Touring Forum (NRTF) has suggested halls might try using <https://www.izettle.com/gb> or <https://sumup.co.uk/>
11. **Areas may need to be marked out temporarily** to help people achieve social distancing.

- 12. Attendants and Toilets:** Sufficient attendants will be required to manage queues, seating, toilets etc. A longer interval is likely to be required and an attendant present to invite people to use them row by row, to manage numbers.
- 13. Space outside for queuing** needs to be available, and safe. People may need protection from traffic by routing them behind physical structures such as bollards or putting up barriers. It may be necessary to liaise with neighbours or local authorities.
- 14. The needs of disabled individuals and those who are frail or have sensory disabilities** need to be considered at entrances, exits, in queue management and seating arrangements. Arrangements need to be communicated effectively.
- 15. Where social distancing guidelines cannot be followed** in full, all appropriate mitigating actions should be taken to reduce the risk of transmission between people. Social distancing may be impractical where one professional works with groups e.g. in a dancing class, for dancing, costume-fitting, make-up, intimate/fighting scenes. Mitigation measures include, for example:
- increasing the frequency of hand washing and surface cleaning,
 - keeping the activity time as short as possible,
 - using back-to-back or side-to-side seating or working (rather than face-to-face),
 - reducing the number of people each person has contact with by using 'fixed teams or partnering' (so each person works with only a few others),. These teams should not mingle with each other in a non-socially distanced manner.
 - using screens or barriers.

Managing Seating:

Seating needs to be provided in a way which ensures social distancing between individuals or groups from the same household or support bubble can be maintained. Village halls, with removable seating, are at an advantage over theatres with fixed seating. Consider measures such as:

- Spacing rows further apart than usual, providing 2m spaces (or 1m plus mitigations such as good ventilation) between seating for household groups, providing one or two empty (marked) seats between household groups.
- Providing allocated seating and managing seating plans through ticketing systems to ensure social distancing is maintained.
- Provide attendants to help with social distancing e.g. to ask people to occupy seats from the furthest point first and evacuate from the point closest to the exit first.
- Encourage people not to bring bags and coats where possible to reduce clutter at seats.
- Remind those accompanied by children that they are responsible for supervising them at all times and should follow social distancing guidelines.

Handling props, musical instruments, technical equipment etc

To avoid transmission through contact:

1. Instruments and other personal kit should be kept clean by the owner, and not shared with others. Name labels on equipment will help identify an owner or designated user. People should avoid sharing scripts, scores and personal items such as phones, charges, pens etc. A drop off and pick up point should be created rather than passing equipment such as props and microphones hand to hand.
2. Any equipment which has to be shared should be regularly disinfected and always between users.

3. Waste and belongings should be removed at the end of a class, rehearsal or performance.
4. Use a consistent pairing system if people must work in close proximity, e.g. for handling heavy equipment.

Organisers of outdoor performances should also consider:

Consulting the guidance on delivering outdoor events, particularly where such performances are not typical to their operations. Points here are only a summary.

- Managing family groups who may wish to remain closer than the required social distance but who, in doing so, may encourage others to cluster in a similar manner. Communication is key to this.
- Planning car parking to allow sufficient spacing for social distancing in case people need to visit their vehicles to collect chairs, coats, drinks etc. or gather around vehicles.
- Discouraging activities likely to encourage audience behaviours increasing transmission risk, such as clustering, communal dancing, and physical contact outside of household groups.

Local authorities can provide advice on how to manage outdoor events. They will avoid issuing licenses for events that could lead to larger gatherings forming. If appropriate, the Government has powers under schedule 22 of the Coronavirus Act 2020 to close venues hosting large gatherings or prohibit certain events (or types of event) from taking place.

Appendix K

Indoor and outdoor exercise and sport

This Appendix contains key points from Government guidance relating to sport and exercise in village and community halls and associated outdoor areas. The important 5 points of the COVID-19 secure guidelines set out in Section 2.1 of the ACRE Information Sheet should be in place and are not repeated here (social distancing, cleanliness, handwashing etc).

A village hall which has undertaken a COVID-19 risk assessment and is following the steps identified to minimise transmission should satisfy most points in the Government guidance for providers of grassroots sport and gym facilities, the full text of which is contained here:

<https://www.gov.uk/guidance/working-safely-during-coronavirus-covid-19/providers-of-grassroots-sport-and-gym-leisure-facilities>

From 11th July organised team sports could be played outdoors, including cricket, and outdoor sport and physical participation events held, outdoor gyms used.

From 25th July, indoor gyms, fitness and dance studios, indoor sports facilities will be able to open, which means that activities which would be held there, such as yoga and Pilates, dance classes, badminton, table tennis, indoor bowls etc can be held in village and community halls.

Key Points:

1. **Governing body guidance:** Sport and exercise should take place in accordance with guidance to deal with COVID-19 risks issued by the relevant governing body for the sport or activity. ACRE recommends village and community halls require hirers to comply with such guidance, rather than trying to adapt hiring conditions and policies for each specific activity.
2. **Changing facilities:** People should be encouraged to arrive ready changed and, where possible, travel home to change/shower. If needed, use of any changing rooms should be managed in a similar way as for toilets.
3. **Payments:** Cash transactions should be avoided – online payments and booking used where possible to manage demand.
4. **Capacity figures and ventilation** may need attention by some hirers: Doors should be fixed open where possible for ventilation (except fire doors), use of outdoor space encouraged where possible. Capacity may be reduced below that already reached for social distancing where high intensity exercise activity takes place, activity is not static, equipment is involved, or an instructor needs to move between groups of socially distanced people. For high intensity exercise (e.g. Zumba) 100% fresh air is required, air should not be recirculated from one space to another, and the capacity of 100 sq. ft (9.29 sq. m) net indoor facility space available per person (including changing rooms, toilets, entrance etc) should be used (section 5 of the guidance).
5. **Dance and exercise:** Temporary floor markings are encouraged to define spacing per individual (e.g. chalk)
6. **Equipment:** People should avoid use of shared objects unless they can be cleaned between users, should bring their own equipment such as mats as far as possible and their own water bottles.
7. **Social distancing:** The usual requirements apply to stay in groups of no more than two households (indoors) and (outdoors) no more than two households or six individuals from different households, with 2m social distancing between these groups or 1m plus mitigation measures

where that is not possible (e.g. extra ventilation). Where needed, the number of people each person has contact with should be reduced by using “fixed teams or partnering” or creating distinct groups which always work together.

8. **Parents and spectators:** Social distancing among spectators such as waiting children or parent chaperones will need to be managed if there is insufficient room in the hall, e.g. waiting in the entrance hall, car park, or car.
9. **Instructors running classes or clubs in several venues:** The instructor needs to take particular care to avoid risk of transmission from one class or venue to another. Halls should check the steps they are taking to avoid transmission and how many facilities they are operating in.
10. **Amateur sports clubs:** A phased approach to return is recommended in consultation with volunteers, supported by training for volunteers around compliance with COVID-19 Secure guidelines and according to guidance from the governing body. When running activities for children the guidance for out-of-school-settings should also be used:

<https://www.gov.uk/government/publications/protective-measures-for-holiday-or-after-school-clubs-and-other-out-of-school-settings-for-children-during-the-coronavirus-covid-19-outbreak/>

Outdoor sports facilities

Outdoor sports have been permitted since 11th July. The relevant guidance is:

<https://www.gov.uk/government/publications/coronavirus-covid-19-guidance-on-phased-return-of-sport-and-recreation/guidance-for-providers-of-outdoor-facilities-on-the-phased-return-of-sport-and-recreation>.

It is against the law for gatherings of more than 30 people to take place in private homes (including gardens and other outdoor spaces).

Businesses, charities, public bodies, political organisations and venues following COVID-19 Secure guidelines can host larger groups in outdoor spaces, provided they take reasonable steps to mitigate the risk of transmission, in line with COVID-19 Secure guidance and including completion of a risk assessment. Any other gathering in an outdoor space must not be any larger than 30 people.

Appendix L

COVID-19 treatment plan

In the event of someone becoming unwell with suspected COVID-19 symptoms while at the hall you should:

- a) Send them home immediately
- b) Ask other members of your group to provide their contact details if you do not have them
- c) Ask the rest of your group to leave the premises, observing the usual hand sanitising and social distancing precautions
- d) Advise them to launder their clothes when they arrive home
- e) Inform** *insert name and contact number*
- f) If the unwell person needs to wait for a lift: -
 - (1) Remove them to the safe waiting area, which is *insert details* – a chair and washing bowl should already be there
 - (2) Put on a mask, face shield, gloves & apron to protect yourself
 - (3) Provide them with tissues, a plastic rubbish bag, a bowl of warm water & soap for handwashing & paper towels
 - (4) Once they have been collected: -
 1. Remove gloves, apron and face mask to the rubbish bag*
 2. Leave face shield on top for disinfection
 3. Wash your hands for at least 20 seconds with warm soapy water
 4. Wait for *insert responsible committee member* to arrive.
 5. Once home - launder all your clothes and wipe down disinfect your car

*Note that the waste should be double bagged and kept for 72 hours before being collected.
